JULY 1975 ESTIMATED! PATH TIME - LOCAL STANDARD TIME - LOCAL STANDARD WIDTH OF PATH (YARDS) WIDTH OF PATH (YARDS) CHARACTER LENGTH OF P CHARACTER ENGTH OF F PLACE PLACE PROPERTY PROPERTY STORM STORM NJURED KILLED KILLED CROPS CROPS FLORIDA (continued) DELAWARE ٥ Wind ó 3 0 Lightning Delaware Bay 3:45 p. South Bay, Palm Beach 3 Afternoo 0 4:30 p. A 14-foot aluminum boat capsized in strong winds about 1/2 mile off
Kits Hummock; one man was rescued and was treated for shock and
bruises; the other occupant was drowned. About 45 minutes later a
34-foot houseboat with three men abeard capsized and sank off Taylors Bridge located to the northeast of Sayrna. One man managed
to swin ashone and the other two were missing and were presumed
death. The cooperative weather observer at Middletown noted very
strong winds about this time. year old 2 miles 0 3 0 Key West, Monroe County 0 Waterspout EST mile north of Key West lasting waterspout sighted at the same city dissipated quickly. of ime 2 miles rth northw Miami, Dade County Wind, rain Afterno Rehoboth Beach During a series of severe afternoon thunderstorms, a small tornado dipped down briefly at least two times in the southwest section of the Greater Miami area upropting trees, tearing out patio screens, knocking down bower lines, and in one instance picking up a Fiat autombile and hurling it against the wall of a house. A branch from a nearby tree shattered the living room window of one residence showering a 19-year-pid man with glass and causing multiple cuts. An autombile next dobr was masshed by a falling tree, and a 100-year old tree 4 blocks away was uprooted. derstorm winds swept through a sailboat mooring area, damagin sailboats. Rain was also heavy, causing minor flooding. both Beach Police reported 5 inches between noom and 4 p.m. ring area, damaging Rain, lightning, 10 State Evening Thunderstorms drenched scattered areas of the state. During a second straight day of heavy rein at Rehoboth Beach, water as desp as 2 1/2 feet was reported. Lightning and wind knocked out eletric service in many areas; affecting thousands of customers. Winds downed trees in scattered locations especially in the Odessa area. Lightning, high wind, rain and hail 4 Broward and Dade Counties to 3:30 PM EST 2 0 State Rain, wind Numerous thunderstorms produced lightning, high winds, heavy rain, and hail. Lightning injured a 18-year old girl when it struck a paylilion she shared with 6 others in Snyder Park in Ft. Lauderdale. Lightning a los startad a fire in the Snyder Park Gatehouse and in a hote at Niami Beach. Winds gusting up to 51 mph were measured at Tamiami Alrport 2:10 PM. There were inumerous reports of trees and utility lines down. Rainfall amounts ranged from 2 to 3-inches and caused some street flooding. Golf ball size hail fell for about 20 minutes and covered the ground along a section of Tamiami Trail in West Miami. The Miami Beach temperature fell to 66 degrees during a thunderstorm and sat a new low record for the month of July. On as many as hime straight days and especially on the 13th and the 14th persistent southerly flow of moist, unstable air brought heavy rains and flooding in low-lying areas. Some unusually heavy totals were recorded, such as 8.50 incles during 4 24-hour period ending on the 13th at the Bower Weather Station, 7 inches of this occurring in 4 hours between 7 a.m. and 11 a.m. Silver Lake and St. Jones River reached record levels. Many Delicater rivers and creeks crested near their fill-time records; such as, Red Clay Creek at 8:05 a.m. on the 14th, creating at 9.21 feet, 411-time record 9.93 feet, with creek overflowing banks on four different times; Christiana River cresting at 10.76 feet on 14th, second highest on record, with river overflowing banks on four different times. Two men drowned because of the high waters: A 17-year cld boy was drowned in Moore's lake Dowe at 6:00 p.m. on the 18th; pwidence indicates that he while Arlington, Duval 5:15PM EST 1/10 20 0 0 3 O overlowing outside of the high waters, A 17-year old boy was drowned in bowned because of the high waters; A 17-year old boy was drowned in bowne's lake Dower at 6:00 p.m. on the 18th; byddenos indicated that he, while swinging with other youths, was swept away by the flood waters. A 19 year old student was killed at 10:15 p.m. on the 18th when his carplumed into the rain-swollen Red Cley Creek off parley Mill Road, plowing into a large pocket of water. In Kent County there were 57 reports of people trapped in cars and homes because of high water. Six hen were rescued from a log jam in the middle of the Brandywine River when they tried to rise an inflatable raft som the swollem river. The foundations to three houses in the Canden-Wyoming area were collapsed by the flooding whered. Many sections of roads and underpasses became impassable; the underpass at Stanton had water 7 feet deep. The record discharge on the Marshympe Creek at Adamsville was reached at 11:00 p.m. on the 13th, Major crop damage was reported. State sources in agriculture estimated, late in following month, the crob loss at 55, 400,00 in Sussek County alone. High winds were reported at 3:301 a.m. on 19th near Seaford, overturning a camper and removing the roof of a chicken house. A small tornado touched down in the backyand of a private residence. Most of the danage was to trees with some damage to roofs and to a storage shed. There were no injuries. It was reported that the tornado sounded like a train with a screaning sound. A storage shed in the back yard was picked up and hurled across the back fence into a neighbor's yard. Miami, Dade County 5 Late 0 2 n 0 Lightning orns were shocked during a thunderstorm when they utility pole as they were getting out of were treated at a hospital and released. lightning struck an automobile. Key West. Monroe County 6:43PH Ω 0 ٥ waterspout observ d after 5 minutes. Middletown (near) 14 7:40 a. Key West dissipatot flying from suching down three ed a tornad Middletown. Calhoun County yland Line 1/10 30 0 0 ted. The Civil Defense office in West Florida reported a tornado touch down 10 miles horthwest of Blountstown. One house was badly damaged two out buildings were damaged, trees were down on power lines, and telephone service in the Blountstown area was out for some time. No injuries were reported. New Castle County Rain Thumberstorm rainfall brought considerable minor flooding, especially along the Red Clay Creek which crested at 415 a.m. on the 21st at 10:32 feet, the highst om record. Many calls for help from stranded residents were received by fire rescub squads. Mayo, Lafayette County Lightning NOTE: July 1975 Three persons were killed and six injured by lightning while working on a tobacco farm near Mayo. The workers were stringing tobacco under a tin shed during a thunderstorm wher lightning struck a nearby walnut tree. Two persons were killed instantly and a third prondunced deal after rescue efforts failed. All nine persons at the scene were knocked down by the lightning bolt. in veacu ne having the greatest s history \_FLORIDA Valparaiso, Okaloosa 11:34AM ٥ ١, 0 0 Waterspout rspou of Valparaiso. 4 0 0 0 Port St. Joe, Gulf Lightning 1 0 0 Miami, Dade County Late 0 Lightning A home was destroyed at the old St. Joe Lumber and Export Co. site after it reportedly was struck by lightning. Duning another thunder storm, lightning struck a utility pole behind the Florida Power Co. office building causing considerable damage to the electrical switch boxes in the office. Afternoo A woman was injured slightly when lightning struck a tree in her from yard and traveled through a power line into the house. She was on her knees cleaning out a closet at the time and was thrown out of the closet and across the room. Orlando, Orange Count 8 0 0 4 0 nd heavy rain. 0 ٥ Key West, Monroe 10:11AM 0 Waterspout and Evening EST Midespread severe thunderstorm activity was reported in several central Florida counties. Locally heavy rains flooded Orlando streets as much as a foot deep in some areas. Winds uprooted a huge loak tree and it fell on an Driando residence. Numerous power outages occurred due to lightning strikes. Key West, Monroe County 6:22PM 0 0 Waterspout EST orted 5 miles north of Key lasting 5 minutes

TIME - LOCAL STANDARD PATH PATH WIDTH OF PATH (YARDS) WIDTH OF PATH (YARDS) CHARACTER LENGTH OF F CHARACTER LENGTH OF (MILES) PLACE PLACE OF STORM STORM NJURED INJURED KILLED KILLED CROPS CROPS DATE × ILLINOIS (continued) ILLINOIS (continued) Fhunderstorms, hail, wind, lightning 0 0 nadoes ravaged a large portion of central Fulton
the afternoon, Most damage associated with the Mirc
occurred to prope and
rassing through the city of Canton, the second toravy thil in injuries and property. 23 approx 11 1½ 4:30pm
A pair of tornadoes rawaged county late in the afternoon first tornado occurred to the second control of the uthern half evening Thunderstorms across the southern half of Illinois caused some damage to tress and utility poles; large hall accompanied the stome in some areas. Coll ball size hall was reported near Jacksonville at 2;18pm. Hall amage to corn was substantial as baseball size haif fell in parts of the Irvington-Hopleton area during the afternoon. A halistorm lashed an area covering 15 miles north and 15 miles bouth of US 50 and east in a strip from Salem to the Bannister Road. The corn was left looking like a huge field of wild water grass after the half fell for about twenty minutes about 3:20pm. Half ranging in size from three-quarter to three inches rounded the area around Goreville at 4:10pm; three-quarter inch half fell at Jonesboro at 4:50pm. Winds were reported to have knocked over some trees in the extreme southern portions of the state. Summerfield was without electrical service for twenty-three hours after winds downed lines.

Gusts to 70mph were noted near If of Illinois caused some storm's path. nado took a heavy toll in injuries and property.

Geographically, first evidence of the tornadic storm was located in the Euchnell area in McConpugh county. Wind damage from the parent tornado eyclone was evident in the Area fields on several farms. Several farm buildings in the area sustained varying degrees of damage from broken windows to unroofing; some trees were uproofed. In the fields several miles each of Euchnell damage to crops showed the large scale cyclonic circulation present as the storm passed. A funnel cloud had been sighted at 4:01mm three miles south of Prairie City. The tornado itself first touched down approximately three miles southeast of first. A grain thin in the path of the tornado was completely leveled as the tornado passed; large pieces of the bin were blown up to 0.7 miles south southeast. Corn was flattened in many fields clearly marking the tornado; at the answer at the tornado varied to as great as one and a half miles. Lightning started a fire about 12:43pm in a Champaign home extensively damaging the second floor. 3:10pm ? С 0 0 3 Marshall county Tornado touched down four miles east of Camp Grove damaging two s, The tornado missed hitting any outbuildings. comfields, second tornado in this pair formed to the left of this tornado cut a path through Canton (see below). 6:30pm short narrow lot observed a cornado n O 23 4:45pm 14½ 1½ 2 69 7 6 Tornado
The second tornado to the pair bouched down to the left of the
first tornado at Fiatt. It travelled east through Canton then
weered southeast before lifting about two miles northeast of
Monterey. ٥ 2 Christian county Fulton county 0 Wind broke windows, and dam-1:15pm 0 0 3 g thunderstorm winds approaced trees, Bureau county 1:15pm. aged several lawns at Spring Valley. A 20D year was uprooted downing some power lines. old walnut tree Incredible damage occurred in the city of Canton. One hundred twenty-seven businesses in a five block area in the central portion of the town were damaged; some buildings were totally destroyed, others were so heavily damaged that they had to be demolished. Residential losses were heavy; about 100 homes and 50 mobile homes were destroyed; about 300 homes and 100 mobile homes were damaged. Total losses were placed at \$17-\$20 million. Two deaths occurred as the tornado ripped through the Herton's Mobile Home Manor on the city's east side. Fourteen people were hospitalized and forty-five were treated and released as result of the tornado. 0 0 south of Carroll county mid aft O Funnel clouds and north of Thomson Punnel clouds were sighted about 2:15pm. avan 11 2:15pp short narrow 0 0 0 0 State police observed a brief tornado tou Savanna. Very minor damage to crope was Carroll county 2 four miles south of noted 13 3:35pm A severe thunderstorm with passed through Plymouth ab 0 Hancock county 0 Hail golf ball size hail erstom with gusty winds and promouth about 3:35pm. Only The tornado shapped utility lines to the city. A strike by electrical workers hampered the restoration of power to the city; some areas were without power until the evening of the 28th. All stores in the city except those selling food were required to close. Much of the perishable food supply had to be thrown out. Immediately after the tornado passed the town was closed to outsiders except those on official business. mine r damage occurred. 5:30pm el clouds 0 0 0 0 DeKalb county Funnel clouds aighted by 5:30pm. 0 0 2 vereing large hell—some the size of golf belle—struck a twenty-five square mile area about six miles north of Charleston. The hall—storm, beginning about 6pm and lasting about thirty-five minutes, brought extensive damage to crops in at least a nine square mile area; sixteen square miles suffered lesser damage. farms suffered heavy damage to both crops and farm buildings. total agricultural loss was passed at over \$3 million. A ternado touthed down on a fara southwest of Toilon and followed a left-curving path before lifting one mile south of Toulon. Three funnel clouds were observed near the rope-like tornado column. Corn damaged in a field and fallen to show the cyclonic swirl of the tornado. Stark county 0 0 Heavy rain, wind, East southeast Heavy rains through the afternoon and evening hours caused the Embardes and Little Wabsah rivers to leave their banks at some locations. Some fields were flooded. In Champaign-Brhana more than two linches of rain flooded some street and viaducts. Strong gusty winds accompanied the thurd erstrams and caused scattered minor damage to tree limbs. Gust to Comph were recorded at Banville at 514,5mg; the wind reached 70mph at Mt. Carmel at 514,5mg; he wind reached 70mph at Mt. Carmel at 514,5mg. Small hall see tion of the state; golf ball size hall fell at West Salem at 7:38pm. 23 evening Thousands of lomes in the west and northwest suburbs of Chicago were blackened as thunderstorms) making strong winds to Samph were clocked at Offare International Airport. In addition to downed power lines, minor image mostly to trees was noted. Chicago area 0 0 Grundy county Lightning ol in Morris and Lightning struck the chimney of the Cente cut a hole in the gumnasium roof. IOWA Scho 5 9:15 a 10 0 0 4 0 Thunderstorm In the Sexton area 3 farms sustained wind damage, one sewers with buildings blown down and structural damage others with tree and window damage-heavy rain, but no Kossuth County Vigorous thunderstorms lined up with a north-south orientation and moved across the west northwest portions of Illimois during the afternoon and early evening hours. Strong, damaging winds were common; heavy rain and hail fell in some areas. Three tornadoes were spawned in the late afternoon (see below). aft, and early eve West northwest 23 5 9:30 a Corn flattened in many one farm alone. 0 0 areas-Kossuth County 0 4 Thunderstorm compon; neavy rain and half fell in some areas.

Three tornadoes were spanned in the late afternoon see below).

Strong winds accompanied the thunderstorms as they began their movement in Illinois. Tress were uprooted at 3:25 m at Buffalo Prairie. Winds gusting to Comph at Moline at 3:25 m at Buffalo Prairie. Winds gusting to Comph at Moline at 3:25 m at Buffalo Prairie. Winds gusting to Comph at Moline at 3:25 m broke many tree links across roads and roofs three sites north of Genese at 4:20 m and eight atles north northeast of Genesed at 4:30 m, Mail reporte were scattered. Although most half was marble and pearstes, half the size of golf balls struck Ballas City at 2:30 m. At 3:50 m half reporte were scattered. Although most half was marble and pearstes, half the size of golf balls struck Ballas City at 2:30 m. At 3:50 m half reporte were cattered. Although most half was noted in Beneseo. Lightning started a spectacular blaze in a six-story international Harvester warehouse in Moline at 3:55 m; damage exceeded \$1 million. Thunderstorms sent wind gusts to 60 mph at Morrison and Prophetstorm at 1:45 were overturned; one man suffered minor injuries when his trailer tipped over. A severe thunderstorm at Meredoxia at 5:30 m ripped sections of roof from several houses and snapped utility lines; most of the town was without electricity through the might. Winds gusting to 85 mph at Peorla at 5:40 m knocked over trees in the Peorla area; electrical and telephone service interruption resulted in scattered areas. A fumpel cipud was sighted at Groveland at 6:55 m. 5 Bremer and Chick-asaw Counties ٥ 0 0 4 Thunderstorm Morning
Scattered crop damage ported in the Summer a e from wind and heavy rain was re-and Elma areas. 1 0 4 7:00 a Buchanan and Blac) Hawk Counties Thunderstorm Near Brandon a 3B year old woman killed by lightning while running to close car windows. Lightning also destroyed farm building in same area. In Materioo lightning strikes caused minor damage in two homes. 23- Late p. 24 Early a
In Lyon County a newly constructed silo was pushed off its foundation and had to be demolished-corn flattened in the area by wind. SW of Mobrhead (Monona County-early morning of 24th) 12 head black Angus cows and calves killed when struck by lightning while standing under tree. Lyon and Monona Counties

Note: This publication contains our best information on storms but, due to the difficulties inherent in collection of this type of data, it is not all-inclusive. Late Reports and corrections will be carried in the June and December issues of this publication.

SUBSCRIPTION PRICE: \$3.60 a year; \$4.00 additional for foreign mailing; 30c single copy. Make checks payable to Department of Commerce, NOAA; send payments and orders to: National Climatic Center, Federal Building, Asheville, N. C. 28801. Attn: Publications.

USCOMM-NOAA-ASHEVILLE, N.C. 9/17/75-1700

Includes crop damage.
Crop damage.
Miles instead of yards.
Yards instead of miles.
Storm damages are placed in categories varying from 1 to 9 as follows:
1 Less than \$50
2 \$50 to \$500
3 \$500 to \$5,000
4 \$5,000 to \$50,000
5 \$50,000 to \$50,000
6 \$500,000 to \$500,000
6 \$500,000 to \$500,000
6 \$500,000 to \$500,000
8 \$50 Million to \$50 Million
8 \$50 Million to \$50 Million
9 \$500 Million to \$5 Billion.
